

POSTER GUIDELINES FOR ISAA 2022

The instructions for poster contributions and poster display guidelines are provided below. These Poster Guidelines for ISAA 2022 must be adhered to. If necessary, you can contact Peter Westbye (abstracts@isaanetwork.org) for further details or clarification.

The posters are not intended as commercial sites. Thus, posters must be of a scientific format and attitude. The Program Committee recognizes that commercial adjuvant products must be evaluated and results from these trials presented in a scientific manner. However, the posters must not be used to simply advertise the product. Scientific results must be demonstrated for all posters. Copies of the poster are allowed as handouts. Distribution of commercial documentation is not allowed.
